

FATIMA AMIR

Software Engineer | MERN Stack Developer | Computer Science Student

fatimaamir427@gmail.com | +92-308-1041106 | Lahore, Pakistan

[Portfolio](#) | [GitHub](#) | [LinkedIn](#)

PROFESSIONAL SUMMARY

Computer Science student with hands-on experience in full-stack MERN development through internships and real-world projects. Skilled in building responsive web applications, REST APIs, authentication, and real-time features using React.js, Node.js, Express.js, and MongoDB. Passionate about building scalable web applications and eager to contribute to real-world software engineering projects while continuously learning modern technologies.

TECHNICAL SKILLS

Languages: JavaScript, Python, C++

Frontend: HTML5, CSS3, Bootstrap, React.js

Backend: Node.js, Express.js

Databases: MongoDB, MySQL/SQL

Tools: Git, GitHub, VS Code, Vercel, Railway

Core Concepts: REST APIs, JWT Authentication, OOP (Object-Oriented Programming), Data Structures & Algorithms (DSA)

EXPERIENCE

MERN Stack Developer Intern | TEYZIX Core (Remote)

Jun 2026 – Jul 2026

- Developed full-stack MERN applications using React.js, Node.js, Express.js, and MongoDB with REST API integration and authentication features.
- Collaborated remotely using Git/GitHub in an Agile development environment to deliver project features.

MERN Stack Developer Intern | U Devs (Remote)

Oct 2025 – Dec 2025

- Developed full-stack MERN applications with REST APIs, database integration, and responsive UI.
- Built multiple projects and optimized both frontend and backend features.

Frontend Developer Intern | Elevvo Pathways (Remote)

Sep 2025 – Oct 2025

- Developed responsive user interfaces using HTML, CSS, JavaScript, React, and Bootstrap.
- Built and improved user-friendly web pages; worked on UI improvements, debugging, and Git/GitHub.

KEY PROJECTS

Service & Product Marketplace (Smart Market) | MERN Stack

- Developed a full-stack MERN marketplace with JWT authentication, product and service listings, real-time chat, role-based access, and REST API integration for seamless buying and selling.

Market Service Platform (Hiree) | MERN Stack

- Built a MERN-based marketplace with authentication, client/freelancer portals, service posting, and freelancer hiring.

Vendor & Quotation System (VendorPro) | MERN Stack

- Developed a MERN application with Admin and Vendor panels, authentication, and role-based CRUD operations.

Inventory Management System (Stock Master) | MERN Stack

- Built a MERN-based inventory system to efficiently manage, update, and track stock data.

Airport Management System | React.js, Bootstrap

- Designed responsive user interfaces using React.js and Bootstrap for efficient data visualization and management.

School & Hospital Management UI | React.js, Bootstrap

- Designed interactive data-driven user interfaces using React.js and Bootstrap for efficient data management and visualization.

EDUCATION

Bachelor of Science in Computer Science (BSCS)

Lahore College for Women University | 2023 – 2027

CERTIFICATIONS

- Full Stack Web Development Course – NAVTTC (2025)
- Generative AI Training – Pak Angels (2025)
